

FORCHEURS JEAN-MARIE LEHN PRIZE

Prize for Franco-German cooperation between young researchers

Call for applications 2023

1. The prize

The neologism *Forcheur*, formed from the German word “*Forscher*” and the French word “*chercheur*”, which was adopted from the work of the same name by Gérard Foussier, describes researchers who work together on a daily basis on both sides of the Rhine. Every year, the French Embassy in Germany and the Franco-German University, in partnership with Sanofi Germany and BASF France, organize the awarding of the "Forcheurs Jean-Marie Lehn" prize to a German-French tandem of young researchers, with whom their outstanding collaborative work in the fields of chemistry, health and pharmacology. This symbolic name illustrates the declared goal of promoting closer cooperation between the German and French scientific communities. The award is also under the patronage of the 1987 Nobel Prize winner for chemistry, Prof. Jean-Marie Lehn.

2. Goals

The French Embassy in Germany, in cooperation with the Franco-German University, would like to use this prize to honor and promote German-French teams of young researchers. The aim of awarding the Forcheurs Jean-Marie Lehn prize is to recognize the promising collaboration in the fields of chemistry and health and to encourage the teams to continue on this Franco-German path.

3. Awards ceremony

There are two prizes, each worth **EUR 10,000**, i.e. EUR 10,000 per prizewinner.

The granting of the "Forcheurs Jean-Marie Lehn" prize will take place **on June 19, 2023** in the presence of the French Ambassador to Germany, H. E. François Delattre, the Nobel Laureate in Chemistry Jean Marie Lehn and representatives of the Franco-German University, the partners Sanofi Germany and BASF France **at the French Embassy in Germany**. The participation of the winners is required.

4. Conditions of participation

Applicants for the Forcheurs Jean-Marie Lehn prize must meet the following conditions:

- one member of the team must be employed at a German institution and the other member at a French institution;
- they must work in a **research laboratory** affiliated with either:
 - o a higher education institution
 - o a research institution
 - o a company
 - o a funding structure (Pôle de compétitivité, cluster, competence center);
- be **under 45 years old**;
- are **currently** collaborating on a joint research project;
- conduct research in the fields of **chemistry, biochemistry, pharmacology** or at the **interface between chemistry and health**.

5. Submission of application and jury

The application documents must be sent in pdf format to the following address: attache-science.berlin-amba@diplomatie.gouv.fr **by Monday 10 April 2023** at the latest

The application must be written **in English**. Only one application folder is to be submitted per team of two.

The application must contain the following documents:

1. One completed **information sheet** per team of two (below)
2. A **CV** per applicant in pdf format and max. two A4 pages showing the excellence of his/her research work (conferences, publications, patents, awards, etc.).
3. A **presentation of the current joint research project**, with a focus on the cooperation, the excellence of the joint research work and the planned objectives and references to joint publications. The description should be understandable for a person with a scientific background in the fields of chemistry or health. The relevance of the current Franco-German cooperation should be presented, emphasizing the complementarity of the team members (max. three A4 pages).
4. A letter of recommendation per applicant from the head of the institution can optionally be attached (max. one A4 page).
